

Covid-19 Update January 2021

Fully Operational and Business as Usual

First and foremost, we hope all our clients, suppliers, contractors and friends are safe and well, we hope you all had a pleasant Christmas / New Year break.

Following the Prime Minister's announcement on 4th January 2021 I am pleased to confirm that for our sector it is business as usual. It has been recognised that gardens are a source of solace and mental wellbeing and as such horticultural suppliers, plant and garden centres have remained open to enable us to fulfil long held plans for replanting over the coming weeks.

At this time of year gardens are in hibernation mode, gathering strength for Spring. Signs of which can be seen in many gardens and parklands in our locality. Cherry trees and camellias (as are many other spring flowering shrubs) are showing signs of spring budding and we have seen daffodils make an appearance in more sheltered spots. Daffodils are cheery plants and remind us of happier times to come.

Maintenance Clients

Weather permitting we intend to restart all maintenance contracts week commencing 15th March, we will be in touch nearer the time to confirm.

If you feel that there are some more immediate tasks that require attention before then do ring the office on 01189 724277 or email your request to info@iankendrickltd.co.uk.

Landscape and Property Projects

I will look at these on an individual basis with the clients concerned and try to find suitable and safe dates for these projects to be carried out if possible, and if and when we are able to get materials.

We continue to work to Government guidelines regarding social distancing and extra personal hygiene and handwashing etc. Additional cleaning measure have been put in place at the office, yard and within vehicles. All employees will be checked at the beginning of each working day that they are fit for work. Employees are under strict instruction not to enter inside your property to use the toilet or wash hands. Please do not ask them in either.

At this time, I would request that you do not come out into the garden when the gardeners are on site to maintain social distancing. Please don't offer or make any drink or refreshments. **If you have any requests for work to be done please email your requirements to info@iankendrickltd.co.uk in advance by 5pm the day before our visit.** I can then attach them to the gardeners' work sheets for that day. Please could you leave your side gate open if we need access so that we can just get on with the required work.

Please also check the news section on our website for updates.

I again sincerely thank you for your commitment in these challenging times, continued support and understanding. I look forward to 2021 being a year of renewal and return to more normality as we knew before Covid-19 arrived in the UK.

Ian Kendrick
